ENTRY Jade 909, Aveley

Jade 909 is a sustainable designed home, constructed at an affordable price. The living space is comfortably spread over a versatile layout, divided into a series of zones to make living, entertaining and sleeping suitable for families. The kitchen integrates well with the dining and living area, with direct access to the alfresco. The master suite is quietly located at the front of the home away from the living space and other bedrooms.

WINNER

- Leading the way in Solar Passive/Sustainable design and building
- Individually designed homes
- Single and double storey, townhouses and multi unit developments
- Quality construction with personalised service
